

Attends® Adjustable

Attends - The system with 10 absorption levels for bladder weakness

Attends Adjustable are an all-in-one product designed to manage heavy urinary and/or faecal incontinence.

- 1** White, breathable, textile-like back sheet to aid containment and for improved comfort and discretion.
- 2** Wetness indicator aids good nursing practice and can be used as a guide to when the pad requires changing.
- 3** Soft elastic wings which can be adapted to give a personal fit for improved leakage protection, comfort and discretion.
- 4** Resealable fixation tapes which can be placed anywhere on the front panel of the product and can be opened, closed and reajusted as required for an improved fit that best meets the users needs.
- 5** Superabsorbent core with acquisition layer for improved leakage protection, skin dryness and odour protection.

Natural Odour Protection

Natural Odour Protection reduces the risk of unpleasant smells.

Breathable

The breathable material enables the skin to breathe, which contributes to improved skin health.

Quick-Dry

Quick-Dry is the acquisition layer placed directly below the top sheet where the urine enters the pad. It quickly absorbs urine away from the skin and into the pad and prevents the urine returning to the surface. It can handle several gushes of urine without affecting how the pad works which results in exceptional skin dryness and leakage protection for the user.

pH-Value

The core technology with the curly fibre acquisition layer helps to guarantee a low pH which is similar to the skin. This helps to protect the skin and ensures improved skin health.

Active Zone

The Active Zone is an area centered in the middle of the pad, which provides fast absorption where it is really needed. This provides exceptional skin dryness and improved leakage protection for the user.

Attends Adjustable are tested and approved by proDERM, Institute for Applied Dermatological Research.
