

Attends

Skin Cleansing: Care Foam, Washing Lotion, Wet Wipes, Gloves Skin Care: Body Milk, Hydrogel, Care Cream

Question:

What is special about Attends Professional Care?

Answer:

Attends Professional Care is a line-up of professional skin care products especially developed for sensitive skin.

Attends Professional Care has special protective ingredients in each product that are carefully chosen to help caring for the skin in the most sensitive way.

Attends Professional Care offers a range of two systems: Cleansing & Care. The Cleansing products are highlighted below. For Caring products, please turn the page.

When should I use Attends Professional Care Skin Cleansing Products?

Anytime, anywhere, when the cleansing of sensitive skin is required, especially in cases of incontinence care.

Attends Professional Care : Skin Cleansing

The skin is the largest and one of the hardest working organs of the body. It controls body temperature, protects from the elements and helps get rid of water and waste products. The professional skincare range from Attends has been designed and dermatologically tested to offer a cleansing solution for all round skin care. Use in combination with the caring range for optimum skin condition.
